EDUCATION

B.Sc. Computer Science

College of Basic Science & Humanities, OUAT

Jul 2023 | CGPA: 8.01/10

Sr. School Certificate (XII)

Jawahar Navodaya Vidyalaya

Jul 2020 | 80.20%

Secondary School Exam (X)

Jawahar Navodaya Vidyalaya

May 2018 | 79.80%

TECHNICAL SKILLS

Languages:

Python, C, C++, SQL (Basic),
JavaScript, HTML, CSS

Data Tools:

Excel, Git, GitHub
Power Automate (Familiar)

Soft Skills:

Root Cause Analysis
Data Reconciliation
SOP Documentation
Team Collaboration

LANGUAGES

English (Full Professional)

Hindi (Full Professional)

Odia (Native)

PROFESSIONAL SUMMARY

Computer Science graduate and Wipro Scholar Trainee with hands-on experience in data processes, web technologies, and programming. Seeking to leverage strong analytical skills, Python scripting, and data manipulation capabilities within a financial data services environment. Adept at maintaining data integrity, performing root-cause analysis, and ensuring adherence to governance standards. Quick learner with a keen eye for detail and a collaborative approach to solving technical challenges.

WORK EXPERIENCE

Scholar Trainee at Wipro *May 2024 – Present*

- Engaged in data operations and process workflows within a large enterprise technology environment, supporting data accuracy and completeness.
- Collaborated with cross-functional teams to ensure timely and accurate delivery of operational data to relevant stakeholders.
- Maintained and updated Standard Operating Procedures (SOPs), ensuring adherence to data governance standards and internal controls.
- Supported UAT testing cycles by validating data outputs and assisting in identifying and resolving data-related issues before production release.
- Documented findings from root-cause analyses and applied tactical solutions to address recurring data discrepancies and quality gaps.
- Assisted in generating reports and performing reconciliation checks, contributing to process improvement initiatives.

CERTIFICATIONS & TRAINING

Python 3 Bootcamp – Learnx

Proficiency in data manipulation, scripting, and automation using Python 3.

Amazon Clone: HTML, CSS & JavaScript – DevTown (Mar 2024)

7-Day structured bootcamp developing a full e-commerce UI. Verified at: cert.devtown.in/verify/1MgPqA

PROJECTS

Virtual Personal Assistant (VPA) *Apr 2023 – May 2023*

- Designed and built a command-driven VPA in C that accepts text commands and delivers speech output, demonstrating strong understanding of structured data processing and automation logic.
- Implemented a modular command-execution engine; applied root-cause troubleshooting to resolve edge-case failures, improving overall reliability and response accuracy.

Portfolio Website

- Designed and deployed a fully responsive, user-friendly portfolio site at ashutoshnayak07.github.io/Portfolio/ using HTML & CSS, demonstrating attention to detail and structured data/information presentation.
- Implemented mobile-first responsive design principles, ensuring consistent rendering across devices.

Amazon Clone *Mar 2024*

- Completed a structured 7-day bootcamp project building a functional e-commerce UI with HTML, CSS & JavaScript, replicating real-world data-driven interface design patterns. Gained hands-on exposure to DOM manipulation, event handling, and dynamic data rendering relevant to financial dashboard development.
